Welcome to *Sign Live! Toolbox*

License

This product is property of *intarsys consulting GmbH.* Details about license conditions can be found in the accompanying End User License Agreement (EULA.pdf).

Information about the license conditions for integrated third party products can be found in the sub-folder *doc\3rd_party_licenses* of the installation folder <*CABHOME*>.

Forms of Delivery

Sign Live! Toolbox is available as a packed installation assistant as well as a ZIP archive.

Installation

Security instructions

The installation assistant for *Sign Live! Toolbox* is signed with the *intarsys* Code-Signing Certificate. This certificate has been issued by the trust center Thawte. Review the corresponding signature before starting the installation assistant!

This is how to test the signature through the operating system:

1. Select the installation assistant file in the file explorer with a right click and select the option 'Properties' from the context menu. Select the tab 'Digital Signatures'.
2. Select the signature from *intarsys* and display the signature details by clicking on the 'Details' button. The dialog will display if the signature is valid. If this is not the case then the file has been changed in some way. Contact the manufacturer, in order to receive an un-manipulated installation assistant.
3. If you do not trust the operating system's certificate test, then you can also test the certificate's serial number yourself. Use the 'Show Certificate' button in the 'Details' tab to determine the certificate's serial number and compare this serial number with the current intarsys Code-Signing Certificate. You can find this number on the intarsys homepage under http://www.intarsys.de/codesigningcert.
   If the serial numbers do not match, then the signature has been created by someone else. Contact the manufacturer, in order to receive an un-manipulated installation assistant.

Software Requirements

- Operating System
  This product has been tested for Microsoft Windows XP with Service Pack 2 (Home, Professional, Tablet PC Edition) and Windows Vista.
- Java Runtime Environment (JRE)
  You will require a Sun JRE Version 1.5.0.

Hardware Requirements

- Intel Pentium Processor 1 GHz or equivalent Processor
- RAM: Minimum 256 MB, recommended 512 MB
- Free Hard Drive:
  Sign Live! Toolbox: approx. 17 MB, additionally 17 MB for unpacking the installation files

Installation

This product saves installation information in the windows registry. You will require write access for therefor. For this reason you should open one of the installation assistants named above with administrator rights (context menu > Run as ...).

The installation assistant recognizes versions of *Sign Live! Toolbox* already installed and will let you decide whether to continue or cancel the installation.

Sign Live! Toolbox will be installed parallel to other CABAReT-Stage-based products and will not interfere with these.

Installation per *file copy* is also possible. Missing registry entries can be installed afterwards as needed. They are not required to run the application.

Reinstallation

When reinstalling *Sign Live! Toolbox* existing settings in the configuration folder <CABPROFILE> (e. g. *C:\Documents and settings\<user>\.SignLiveToolbox_<version>*) will be retained if possible. Changes to files installed by the installation assistant will be overwritten!

Uninstall

To uninstall this product please start the file *unins000.exe* in the Sign Live! Toolbox installation folder. The installation assistant will delete **all** installed files - including the ones you have made changes to! Files you have created and settings in the settings folder will be retained.

Operation

Start *Sign Live! Toolbox* through the program link *Sign Live! Toolbox 4.1* in the Start menu folder of the same name.

Support

Further detailed information can be found in the online documentation included upon delivery, which are available through the application's 'Help' menu. Further information and contacts can be found on our website under http://www.intarsys.de/.
